. Per montare la serratura Security Lock su valigie e bauletto dotati di serratura di tipo tradizionale, è necessario sostituire la boccola e la piastrina sottoserratura (indicate rispettivamente con i particolari n°3 e 6°) montate sul blocco cerniera con quelle che avete trovato nella confezione SL101.

. To mount the "security Lock Kit" on bags provided with a conventional lock, it is necessary to replace the bushing and the under lock plate (item n°3 and 6°) mounted on the hinge block with those founded in the SL101 package.
